Answer the questions in the "Determination of Intellectual Disability" box below only if both of the following are true:

- (1) The basis of a proposed ward's alleged incapacity is intellectual disability.
and

- (2) You are making a “Determination of Intellectual Disability” in accordance with rules of the executive commissioner of the Health and Human Services Commission governing examinations of that kind.

If you are not making such a determination, please skip to number 7 below.

“DETERMINATION OF INTELLECTUAL DISABILITY”

Among other requirements, a Determination of Intellectual Disability must be based on an interview with the Proposed Ward and on a professional assessment that includes the following:

- 1) a measure of the Proposed Ward’s intellectual functioning;
- 2) a determination of the Proposed Ward’s adaptive behavior level; and
- 3) evidence of origination during the Proposed Ward’s developmental period.

As a physician, you may use a previous assessment, social history, or relevant record from a school district, another physician, a psychologist, an authorized provider, a public agency, or a private agency if you determine that the previous assessment, social history, or record is valid.

1. Check the appropriate statement below. If neither statement is true, skip to number 7 below.

- ☐ I examined the proposed ward in accordance with rules of the executive commissioner of the Health and Human Services Commission governing Intellectual Disability examinations, and my written findings and recommendations include a determination of an intellectual disability.
- ☐ I am updating or endorsing in writing a prior determination of an intellectual disability for the proposed ward made in accordance with rules of the executive commissioner of the Health and Human Services Commission by a physician or psychologist licensed in this state or an authorized provider certified by the Department of Aging and Disability Services to perform the examination.

- ☐ Severe (IQ of 20-25 to 35-40) ☐ Profound (IQ below 20-25)

3. ☐ Yes ☐ No ---- Is there evidence that the intellectual disability originated during the Proposed Ward’s developmental period?

Note to attorneys: If the above box is filled out because a determination of intellectual disability has been made in accordance with rules of the executive commissioner of the Health and Human Services Commission governing examinations of that kind, a Court may grant a guardianship application if (1) the examination is made not earlier than 24 months before the date of the hearing or (2) a prior determination of an intellectual disability was updated or endorsed in writing not earlier than 24 months before the hearing date. If a physician’s diagnosis of intellectual disability is not made in accordance with rules of the executive commissioner — and the above box is not filled out — the court may grant a guardianship application only if the Physician’s Certificate of Medical Examination is based on an examination the physician performed within 120 days of the date the application for guardianship was filed. See Texas Estates Code § 1101.104(1).
