	§	
2026-2	§	
	§	Brewster County, Texas

Administrative Order Regarding Court Video Conferences

On this day, the Court finds there is a need for a formal procedure for accommodating Court related Video Conferences.

The Court finds that, many times, parties to a proceeding are late, do not know how to operate their video conference software, or are unable to connect with video, audio or both.

It is therefore **ORDERED** that in all cases where Video Conferencing will be used, parties to the proceeding who will be using Video Conference must be online and ready to fully engage in the proceedings without delay. Pre-court set-up will be conducted by the Judge's clerk.

Nothing in this Order shall imply that Vido Conferences are approved for all proceedings.

Signed the 3 day of Nov, 2026.

Greg P. Henington
County Judge
